Professional Summary

Dynamic and results-oriented IT professional with extensive experience as a Software Development Engineer in Test (SDET) and QA Automation Engineer. Skilled in designing and executing robust end-to-end testing frameworks to ensure software quality and stability. Proven expertise in Agile environments, with a track record of delivering high-quality solutions for multinational clients.

Core Competencies

- **Automation Expertise:** Proficient in Cypress, Selenium, TestNG, and JUnit for developing and maintaining end-to-end automation frameworks.
- **API Testing:** Strong hands-on experience with Rest Assured, GraphQL, and Postman for API validation and reliability testing.
- **Agile Methodology:** Adept at working collaboratively in fast-paced Agile environments.
- **Version Control:** Skilled in GitLab, Azure and Bitbucket for seamless version control and team collaboration.
- **Testing Strategies:** Expertise in functional, regression, smoke and integration testing.
- **Datadog:** Synthetic testing expertise, log monitoring and using Datadog RUM for error capturing.

Professional Experience

Bounteous x Accolite — QA Functional and Automation Engineer

February 2025 – Present, Remote

- Develop and maintain automation test scripts across the Tribute Technology suite (Tribute Book, Tribute Video, Ecommerce Legacy, Front Runner, Front Runner Pro, TCO and Funeral Tech).
- Perform comprehensive end-to-end quality assurance to ensure high-quality releases across all Tribute Technology projects.

LTIMindtree Ltd. — QA Functional and Automation Engineer

October 2021 – February 2025, Powai, Mumbai

- Automated UI and API tests using Cypress and Selenium with Page Object Model and Cucumber BDD frameworks.

- Led functional, regression and smoke testing for high-visibility real estate projects such as Coldwell Banker Homes, Coldwell Banker, Banker Home Garden, ERA and Exclusive Look.
- Conducted extensive API testing using Postman and GraphQL.
- Collaborated with cross-functional teams, actively contributing to sprint planning, defect resolution and error log monitoring using Datadog.

Hexaware Technology Ltd. — Software Tester

June 2019 – October 2020, Navi Mumbai

- Managed manual and functional testing for ticketing systems, ensuring real-time tracking and UI automation using Java Selenium and maintaining configuration accuracy.
- Identified and documented defects in ALM/JIRA and collaborated with developers for timely resolution.

Conneqt Business Solutions Limited — Associate

July 2018 – March 2019, Thane

- Performed network testing and assisted in providing solutions to support detailed enterprise requirements.

Project Highlights

eCommerce Legacy Touch

- **Technologies:** Shopify-based e-commerce website
- **Role:** Full stack QA engineer

Front Runner and Front Runner Pro

- **Overview:** Provides everything a funeral home needs—professional websites, management software, florist e-commerce integration and online tribute pages.
